Dir. of Community Relations

Dear Sir/Madam,

Our Education Institute of the United States Latino American Chamber of Commerce (USLACC-INSTITUTE) continuing its educational mission that began in February of 2009, not only for entrepreneurs in this country but for community and business leaders, students and citizens in Latin America and other geographic zones as well, is now offering its course to help everyone START SPEAKING ENGLISH IN 90 DAYS. This course will teach you more than 800 vocabulary words necessary to be part of an English conversation. It comes with 48 lessons with exams, 42 interactive games so kids learn while they play and Basic Master Computer Course. Compared to other English and computer courses that can cost up to \$1,000.00. With us you only pay \$129.00 for the whole package for a year. Complete the course as soon as possible, to make that appointment at the U.S. Consulate or for a job interview in English.

What our students are saying: Maria (college student) says, "gFriend has become a daily addiction for me. I learned to speak English faster within a few months in gFriend than my 11 years of school"! Vera (mother, businesswoman) says, "I quickly found joy learning English with gFriend! The enthusiasm is what I missed in school and what I found in abundance at gFriend". Sergey (businessman) says, "I use gFriend with great passion. It helped me to achieve my goal in upgrading my English skills". Erik (middle-school student, China) says, "gFriend's course made me feel proud. I think I can go abroad to America when I grow up".

We at USLACC-INSTITUTE offer this limited time and unique opportunity to the above mentioned institutions to join us in this educational campaign for everyone to START SPEAKING ENGLISH IN 90 DAYS, you will receive an economic benefit of \$25.00 from every purchase. Your only responsibility will be to include in your website a link to our page.

Whoever takes the course and passes the exam, will receive as a bonus, four educational credits for later entry to our UNIVERSIDAD LATINA INTERNACIONAL in United States.
